

Jackson County &
Heron Lake Watershed District
Redeterminations

Ideas to Consider

- Jackson County ordered redeterminations on all ditches approximately seven years ago
- Jackson County and Heron Lake Watershed District manage Projects 2, 4, and 84-4A together

Ideas to Consider

- Ditches only get redetermined when ordered.
- A redetermination is a snap shot in time of what the current systems benefits are.

How Redetermination Triggered:

- Requested by landowners
- Improvement
- Current benefits do not keep up with yearly maintenance cost
- Repair that costs more than the benefits
